Evening: Formal Dinner

19:30 - 23.00 Formal Dinner

THE WORKSHOP :

This workshop is the second in the series run by RESCUE (Regeneration of European Sites in Cities and Urban Environments) and will be hosted by the Geoenvironmental Research Centre, Cardiff University. The programme of work is supported by the European Commission under the 5th Framework Programme, within the "Energy, Environment and Sustainable Development Programme", Key Action 4 "The City of Tomorrow and the Cultural Heritage"

The objective of the workshop is to provide a forum to share the experiences and solutions of those working to regenerate brownfield sites in a sustainable manner and to disseminate best practice and useful case studies. The workshop is designed to act as a facilitator of knowledge exchange and learning within and between stakeholders, working within the regeneration field in the European Union, Accession Countries and beyond.

The workshop is tailored to the needs of stakeholders interested in the challenges and successes of sustainable regeneration of brownfield sites, including regulators, policy makers, public administration and government authorities, investors, land owners and developers, consultants, academics, community groups, technology providers and the financial sector.

REGISTRATION :

Please register for the 2nd RESCUE International Workshop using the registration form provided overleaf. Fees for the workshop are as follows:

- Delegate Fee - £ 75
- Student / RESCUE / NGO Delegate Fee - £ 50

Registration fees include admission to all technical sessions, the poster session, lunch and refreshments. Delegates and their accompanying persons wishing to attend the Workshop Banquet on Wednesday Evening will need to purchase ticket(s) when registering. Banquet tickets are £ 25.

DEADLINE FOR REGISTRATION
THURSDAY, 19TH AUGUST 2004

Delegates are also asked to indicate on the registration form which of the workshop sessions they would like to attend during the afternoon parallel track session. Delegates can choose to attend one of the five different workshops which will be running concurrently.

Workshop 1

Brownfield rehabilitation: Sustainable management of contamination and wastes.

Workshop 2

Sustainable brownfield regeneration: The management of buildings and infrastructure.

Workshop 3

Planning for the city of tomorrow: Tools for sustainable land use and urban design on brownfield sites.

Workshop 4

Citizen participation: Sustainable planning, processes and methods.

Workshop 5

Brownfield redevelopment project: Sustainable management approach.
